

Driftless Area Symposium 2006

Presentation Order	Time	Presenter	Topic	State
--------------------	------	-----------	-------	-------

Monday AM

1	10:00 - 10:05	Mark Ebbers	Welcome	Minnesota DNR
2	10:10 - 10:25	Jeff Hastings	TUDARE - What is it?	Trout Unlimited
3	10:25 - 10:40	Tom Thrall	TU Driftless Area stream restoration mapping and inventory project.	Thrall Conservation Consulting, LLC
4	10:40 - 11:00	Bill Kalishek	A review of Iowa's trout habitat improvement program	Iowa DNR
5	11:00 - 11:20	Steven Klotz	A historical program overview of trout stream habitat improvements and restoration efforts in Southeast Minnesota	Minnesota DNR
6	11:20 - 12:10	Dave Vetano	Back to the Future	Wisconsin DNR

Lunch	12:00 - 1:30	Eric Schwaab	Landscape Scale Habitat Conservation Efforts: The National Fish Habitat Action Plan and the Eastern Brook Trout Joint Venture	IAFWA
--------------	--------------	--------------	---	-------

Monday PM

7	1:30 - 2:30	Luther Aadland	Systems based stream restoration	Minnesota DNR
8	2:30 - 2:50	Larry Clagget	Trout stream monitoring in Wisconsin - a new approach	Wisconsin DNR
9	2:50 - 3:10	Dan Salas	Geomorphic considerations for in-stream habitat structures	JFNew

Break 3:10 - 3:30

10	3:30 - 3:50	Matthew Mitro	Instream habitat restoration targeting brook trout versus brown trout in sympatric populations: a case study in Elk Creek and Big Spring Branch, Wisconsin	Wisconsin DNR
11	3:50 - 4:10	Pat Sutter	West Branch Sugar River removal from 303D list	Dane County Conservationist
12	4:10 - 5:00	Karl Koller	MESBOCA: Letting the stream design your crossing to maximize fish passage and minimize instability	Minnesota DNR

Social 5:00 - 7:00 Dinner on your own

Tuesday
AM

13	8:00 - 8:20	John W. Welter	Stream access and conservation easements: tools used in Wisconsin and their transportability to other Driftless Area states	Trout Unlimited
14	8:20 - 8:40	Dave Vetano	Early wild trout	Wisconsin DNR
15	8:40 - 9:00	Douglas Dieterman	Summer habitat associations of large brown trout in Southeastern Minnesota	Minnesota DNR
16	9:00 - 9:20	Dan Salas	Vane structures for erosion control and aquatic habitat enhancement	JFNew
17	9:20 - 9:40	Frank Pratt	Big Woody Cover in the Namekagon River	Wisconsin DNR

Break 9:40 - 10:00

18	10:00 - 10:20	Kraig McPeck	A comparative study of fish assemblages associated with Newbury-weir riffle pool complexes and natural riffle pool complexes in seven headwater streams in JoDaviess County, Illinois	US Fish and Wildlife Service
19	10:20 - 10:40	Joe Schmelz	Incorporating herpetile habitat into stream restoration efforts	US Department of Agriculture
20	10:40 - 11:00	Loren Miller	Genetic structure of southeastern Minnesota brook trout populations and the impact of stocking	University of Minnesota
21	11:00 - 11:20	David Huff, et al.	Reintroduction of native sculpin in the Driftless Area: an overview of reintroductions and research activities	University of Minnesota
22	11:20 - 11:50	Bruce Vondracek	Land use in southeast Minnesota: interactions with trout, water quality, and stream channels	University of Minnesota
23	11:50 - 12:00	Mark Ebbers	Closing remarks	Minnesota DNR
